🔍 What Makes a Rectangle So Special?

All quadrilaterals have 4 sides and 4 corners. So, what makes a rectangle special?
Rectangles   **Not Rectangles**

1 List at least 4 attributes that are shared by all of the shapes in the Rectangles group.

2 List at least 4 reasons the shapes in the Not Rectangles group can't be in the Rectangles group.

Word Bank

right angle	obtuse angle	acute angle	parallel lines
perpendicular lines	symmetrical	line of symmetry	
straight	curved	closed	open
