

Exploring Ramps, Angles and Friction

You've gathered your supplies and built your ramp and created a finish line.

Hypothesis: *Explain what you expect to happen and why, with as much detail as possible.*

Results: *Explain what happened with as much detail as possible.*

Conclusion: *What did you learn?*

What one change are you going to make before trying your experiment again?

Hypothesis: *Explain what you expect to happen and why, with as much detail as possible.*

Results: *Explain what happened with as much detail as possible.*
